I apologize if my child’s behavior has disturbed you. My child has an autism spectrum disorder.

- Autism is a neurobiological disorder that occurs in approximately 1 out of every 68 children.
- Symptoms include:
  - delayed language development
  - reduced social skills, reduced eye contact, repetitive behavior
  - difficulty coping with change which might cause unusual behavior or tantrums

For more information visit: www.childrens-specialized.org/kohlsautismawareness
