PAGE 8: Meet Taryn, Championing Her Way to Overcome Cerebral Palsy
Dear Friends,

In this issue, we celebrate change! You will learn about changes that will lead to greater access for families, even better clinical outcomes than today and an enhanced education/communication experience for our inpatient families.

We have added new physicians to our staff and we bid farewell to Dr. Uday Mehta, who for more than 30 years, has been a beacon of hope for families seeking answers to their child’s developmental delays.

You will also learn about an exciting opportunity that will bring the clinical expertise of Children’s Specialized to China. It’s an opportunity we have been working toward for over a year and we are pleased to share the news with you.

At the end of the day though, even with all the changes, the core of what we do is still the same as it always has been... to be the best provider of specialized services that will allow us to help each child reach his or her maximum potential.

Thank you for your continued confidence and support of all we do. I welcome the opportunity to hear from you, to share more about what we are doing and how we are continuing to change children’s lives.

Sincerely,

Philip Salerno III

Children’s Specialized Hospital Continues to Be Recognized with Prestigious Awards

**NJ Governor’s Council Grant Awarded for Autism Care Coordination**

The NJ Governor’s Council for Medical Research and Treatment of Autism awarded a grant to Children’s Specialized Hospital to establish an Autism Spectrum Disorder Medical Home within Pediatric Primary Care at Children’s Specialized Hospital.

The grant, totaling $400,000 over two years, aims to create a pathway to coordination of care and services for children living with Autism Spectrum Disorder (ASD). Services being added will include staff and parent trainings, behavioral health assessments, screening young siblings for ASD, and on-site representatives assisting with linkage to services and community advocacy. The grant allows Children’s Specialized Hospital to expand its services within Pediatric Primary Care to better provide enhanced medical and behavioral healthcare and a specialized care coordination program for children with ASD and their families.

“Medicine has made tremendous strides in identifying comprehensive treatments for children with autism. With advancements come complexities in delivering that care. This unified coordination of care is a game changer; not only for the healthcare industry, but more importantly for the children and families we treat.”

**MATTHEW B. MCDONALD, III, MD**

**CHIEF OF SPECIAL NEEDS PEDIATRICS**

**CHILDREN’S SPECIALIZED HOSPITAL**

**Patient Care Award Received for Interactive Achievements**

Children’s Specialized Hospital was awarded the 2015 GetWell Network Interactive Patient Care Award for Outcome Achievements in Patient Satisfaction.

The hospital received this award for the development and implementation of the Medication Teaching Pathway which allows inpatients and families real-time access to information about their current medications. They can view their current medication list, understand why it is prescribed, side effects and special precautions, and can also search medications on a hospital-approved database.

This award symbolizes cutting-edge leadership of those who are committed to improving the outcomes of care delivered and care received while recognizing the importance of advancing patient and family engagement through interactive patient care.

Thank you to L’Oréal USA who funded the GetWell Network at Children’s Specialized Hospital and made it possible for patients and families to be engaged and informed about the daily care they receive.
Children's Specialized Hospital Continues to Be Recognized with Prestigious Awards

Pediatric Primary Care Designated as Official Medical Home

Pediatric Primary Care at Children’s Specialized Hospital has become the first pediatric practice in New Jersey to receive a Patient-Centered Medical Home (PCMH) designation by the National Committee for Quality Assurance (NCQA), the most widely adopted model for recognizing PCMH standards.

Through a rigorous assessment process based on scientific evidence and nationally recognized standards of care, our Pediatric Primary Care demonstrates dedication to team-based care coordination, population health management, family-centered care, and continuous quality improvement in support all the children who have special healthcare needs, and their siblings.

“Being a Patient-Centered Medical Home means we can better support our patients’ families beyond the walls of our practice, especially in navigating the complexities of the network of care our medically involved patients face on a daily basis,” said Matthew B. McDonald, III, MD, Chief of Special Needs Pediatrics at Children’s Specialized Hospital.

Clinicians, insurers, purchasers, consumer groups, and others know the PCMH model is an alternative to the nation’s costly, fragmented delivery system. Research confirms that medical homes inspire and lead to higher quality of care, reduce health disparities, improve patient outcomes, cultivate patient relationships, and capture savings through expanded access and delivery options and a reduction in hospital and emergency department visits.

Each year, Pediatric Primary Care at Children’s Specialized Hospital provides family-centered care to about 1,600 children with complex physical and mental health needs. Patients are cared for by an outstanding team of pediatricians, nurses, behavioral health professionals, and care coordinators who strive to care for each unique child and family in the best way possible. Children’s Specialized Hospital Care Coordinators serve as the main point of contact for all of the child’s internal and external healthcare needs.

Microsoft Health Users Group
Innovation Awards 2015
WINNER

Children’s Specialized Hospital and BluePrint Healthcare IT were recently named the recipient of Microsoft Corp.’s 2015 Health Innovation Award in the Patient Engagement category. This award recognizes health organizations and their technology solution partners for using Microsoft devices and services in innovative ways that help enhance the quality of patient care, improve clinician productivity and electronic medical record optimization, and streamline clinical and business processes.

BluePrint Healthcare IT worked with Children’s Specialized Hospital to create Care Navigator™, which is a Microsoft Dynamics CRM-based and mobile-enabled healthcare technology platform. This program empowers real-time, team-based care coordination and communication at Children’s Specialized Hospital. It was launched at the Pediatric Primary Care department, with the ultimate goal of improving efficiency and effectiveness of communication between Children’s Specialized Hospital and family caregivers.

“They sought technology that could optimize impact and efficiency for their care coordinators, streamline communication and tasking among the care team and families, and lessen the burdens caregivers face meeting the needs of medically complex children,” stated Vikas Khosla, President and CEO of BluePrint Healthcare IT.

Children’s Specialized Hospital has had tremendous success improving the coordination of care within Pediatric Primary Care. The Care Navigator™ platform was rolled out in a pilot program which garnered positive feedback from their patient parents and clinicians and so far, it has been a great hit!
Children’s Specialized Hospital goes to China!

With the shared goal of creating superior rehabilitation services for children, a long-term partnership has begun between Children’s Specialized Hospital and China-based LIH Investment and Management, LLC, a comprehensive rehabilitation service management and investment company with a wide range of healthcare networks around the world.

To mark the official start of the partnership, a ceremony and information sharing session took place in Beijing in early August. Amy B. Mansue, President and Chief Executive Officer; Christopher Haines, D.O., Chief Medical Officer; and Michael Dribbon, Ph.D., Vice President of Business Development and Chief Research Officer attended the event and provided educational presentations about the work being done at Children’s Specialized Hospital.

“We saw this collaboration as a truly unique opportunity,” said Dr. Dribbon. “It is the first time Children’s Specialized Hospital has worked to both provide education and help build a Patient-and-Family-Centered-Care model like ours outside of the U.S. In addition, the mission, goals, and spirit of Children’s Specialized Hospital and LIH are so closely aligned that we know children in both countries will be able to benefit from the knowledge we share and gain.”

Exciting Changes in Medical Staff

Thank you and farewell to Dr. Uday Mehta for his many years of dedicated service at Children’s Specialized Hospital

With many years of dedicated service at Children’s Specialized Hospital, Dr. Uday Mehta, Neurodevelopmental Pediatrician and Developmental Behavioral Pediatrician will be retiring at the end of 2015. We extend great thanks to Dr. Mehta for his years of service and cannot express enough appreciation for his dedication to Children’s Specialized Hospital.

During Dr. Mehta’s transition, we would like to introduce Dr. Anna Malia Beckwith as the new Section Chief for Neurodevelopmental Pediatrics. With the hospital since 2011, Dr. Beckwith steps into the role Dr. Mehta formerly held. Dr. Beckwith received her MD from University of Missouri, Kansas City School of Medicine Residency and fellowship in Developmental and Behavioral Pediatrics from Children’s Mercy Hospital and Clinics, Kansas City, Missouri. Additionally, she is board certified in Pediatrics and Developmental and Behavioral Pediatrics. As Section Chief, Dr. Beckwith will continue to see patients as a clinician and will provide leadership to 13 Developmental and Behavioral Pediatricians, Neurodevelopmental Pediatricians, and Child Neurologists.

As Dr. Mehta also steps down from other roles, Dr. Colin O’Reilly will assume the oversight and medical direction of Children’s Specialized Hospital’s two Long Term Care units. In addition, Dr. O’Reilly has also been named Director of Pediatric Palliative Care and the Section Chief of Inpatient Services as former head of this area, Dr. Matthew B. McDonald, III will focus his duties on being Section Chief of Special Needs Pediatrics.

Dr. O’Reilly received his MD from the University of New England College of Osteopathic Medicine, Biddeford, ME; fellowship and residency from UMDNJ/Robert Wood Johnson Medical School, New Brunswick, NJ; and studied Hospice and Palliative Care at Harvard Medical School, in Boston, MA. He holds certifications from the American Board of Pediatrics and American Osteopathic Board of Pediatrics.
Successful Fundraising Events Raise Critical Funds for our Kids

Walk n’ Roll raises a record $270,000 for Children’s Specialized Hospital

The 9th annual Walk n’ Roll for Children’s Specialized Hospital raised a record $270,000 for children living with unique and complex healthcare needs. Over 1,800 supporters filled Johnson Park in Piscataway on Saturday, May 16th with this year’s funding supporting the expansion of new outpatient centers, allowing the hospital to help thousands more children in need of specialized care.

Todd Pettengill and Jayde Donovan from 95.5 PLJ’s Todd and Jayde in The Morning joined the festivities as the 2015 Honorary Chairs and helped give out the top fundraising awards to teams PSE&G, Super Cooper, IEW Construction, Brody’s Believers, and Team Ariana. Telemedicine technology even got in on the action this year with one of Children’s Specialized Hospital’s VGo robots streaming all the action live for inpatients unable to attend in person in order for them to feel the excitement of the day’s event.

The day would not have been possible without the generous support of PSE&G, the event’s top sponsor. Additional sponsors included: L’Oréal USA, J. Fletcher Creamer & Son, Inc., Ferreira Construction Co., Inc., IEW Construction Group, American Pile and Foundation LLC, NJM Insurance Group, Furino & Sons, and the 75 volunteers who donated their time and efforts to pull off such a big event.

Special thanks also goes to Walk n’ Roll chairwoman Kim Hanemann, Vice President, Delivery Projects & Construction of PSE&G and Children’s Specialized Hospital Foundation trustee, who was instrumental in leading the event committee to a record-setting year.

Golf Classic

Rescheduled to July 13th, 116 golfers enjoyed a beautiful day for the Golf Classic at Fairmount Country Club in Chatham, NJ. Being rained out of the original June date did not hamper the experience for guests as they enjoyed a round of golf, silent and live auctions, raffles, and hearing a success story from Children’s Specialized Hospital patient, Eva Niemeijer. In total, this year’s Golf Classic raised $96,000 to support patient access.

Golf Invitational

On July 21st, 100 golfers enjoyed a wonderful day at the Pine Barrens Golf Club in Jackson, NJ. Guests enjoyed a warm summer day full of golf, a silent auction, and raffle. The 23rd Annual Golf Invitational raised $63,000 to support the renovations at our Stevens Road, Toms River site.

"Walk n’ Roll is a unique event that not only educates our communities about the services available for children with complex medical needs; but it also celebrates the over 26,000 children we serve each year at our 13 locations."

AMY B. MANSUE
PRESIDENT AND CEO
CHILDREN’S SPECIALIZED HOSPITAL
Six-year-old Taryn Garriques was singing “My Favorite Things” from *The Sound of Music* in the lobby of PSE&G Children’s Specialized Hospital even before she was a patient when Amy Mansue, President and CEO of Children’s Specialized Hospital, approached her. Taryn’s singing from *The Sound of Music* and *Annie* didn’t stop when she became an inpatient a short time later. She continued to belt out her favorite tunes during her physical therapy and speech therapy sessions.

Taryn has a lot of favorite things, like playing with her four siblings, doing crafts and playing with glitter, and playing board games. But she also has a favorite place, as the Children’s Miracle Network Hospital’s 2015 New Jersey Champion, Taryn loves Children’s Specialized Hospital where her strength and function improved dramatically.

Taryn’s mother, Kathleen, gave birth to Taryn at just 30 weeks – 10 weeks premature. Sadly, during the pregnancy, the Garriques’ family lost Taryn’s twin sister, Destiny, due to further complications from twin-to-twin transfusion syndrome in which the blood supply was shared between both babies. “We always felt Taryn had the spirit of two, her and her sister,” says Taryn’s father, Len.

Ultrasounds later showed Taryn had a grade one brain bleed which would affect her motor function. Having been diagnosed with periventricular leukomalacia, Taryn had a form of cerebral palsy.

On October 10, 2014, at just 5-years-old, Taryn underwent selective dorsal rhizotomy, a surgery to loosen her tightened ligaments in hopes that she would be able to walk. Taryn was transferred to PSE&G Children’s Specialized Hospital in New Brunswick, NJ on October 14, 2014 for intense inpatient therapy where she began her long road to recovery.

The focus of Taryn’s initial therapy was standing and walking as her legs were like noodles. “Taryn made progress day by day and had fun doing it,” says Kathleen. “The therapists were very skillful in making therapy a pleasure. They would let Taryn make up her own games or her own rules to a board game, all the while getting her to increase her physical abilities. The therapists allowed Taryn to feel like she had control of her therapy. It was amazing how quickly the therapists got Taryn to where she was by the time we left.”

Being discharged after a six-week stay, Taryn grew sad and didn’t want to leave because of all the friends she made and being around such friendly staff, even professing that she is going to live at Children’s Specialized Hospital!
Taryn has made incredible strides as she is now able to walk with assistance from her walker or arm braces. Currently receiving occupational and physical therapy at school and other facilities, Taryn also participates in adaptive swim classes at PSE&G Children’s Specialized Hospital. Because of all the progress she has already made, Taryn’s family is hopeful she will soon be running!

As the Children’s Miracle Network 2015 New Jersey Champion, Taryn has been very excited to represent Children’s Specialized Hospital. Having traveled the state to thank corporate partners for their fundraising efforts, attended events and fundraisers, and meeting Champions from all over the country, Taryn is sharing her success story of Children’s Specialized Hospital with countless individuals. Recently, she even had the opportunity to meet with New Jersey State Senator Cory Booker!

With all of the opportunities and gains Taryn has made, a main reason for the success of her progress is easily her bubbly personality and independent beliefs that “I can do it!”

“She does everything without realizing that she’s working,” says Len. “At Children’s Specialized Hospital, that is how they make therapy work. Nothing can be done any better than it is done here.”

Taryn’s very strong will and determination to keep up with her two brothers and two sisters is more motivation to keep improving and growing stronger. “There has never been any time that Taryn felt like she was not able to do something someone else was doing,” says Kathleen. “Post surgery and inpatient therapy, Taryn’s ability is improving greatly, she is amazing! Thank you Children’s Specialized Hospital!”
Extra Life Gaming Marathon

Extra Life is a Children’s Miracle Network Hospitals fundraising program that empowers the gaming community to make a difference in the lives of local sick and injured kids. Participants fundraise year-round and during a 24-hour gaming marathon each fall; they can play from the comfort of their homes, playing any game they choose. Getting involved is as easy as signing up online at extra-life.org, asking friends and family to donate, and pledging to play games for 24-hours in support of Children’s Specialized Hospital. Last year, over 700 gamers played for Children’s Specialized Hospital and raised $117,650 for our kids! Help us reach our 2015 goal of 800 players and $125,000 raised by signing up to play today at www.extra-life.org.

Compass Group

Thanks to the Compass Group at Eurest Dining Services for another wonderful golf outing supporting our kids! Special thank you to top sponsors Dr. Pepper Snapple Group, Canteen Refreshments, Elite-Studio, Mark Maloney, Ed Ullrich and the entire committee!

IHOP

A big thank you to our IHOP partners for raising an amazing $167,233 for Children’s Specialized Hospital, a 37% increase over 2014! Thank you to all of the restaurants for their hard work and dedication and an extra special shout out to our top three fundraising restaurants: Brick IHOP, where Lou and team are expected to be #1 in the country again, Morganville IHOP, and Parsippany IHOP!

Marriott

Thank you to our friends at Marriott who hosted a great day at Trump National Golf Club this summer for the NJ/NY Marriott Business Council 10th Annual Charity Golf Classic. Congratulations on another record-breaking fundraising total of $185,000! A special thank you to the Golf Classic chair and General Manager of the Bridgewater Marriott, Sal Pignio; Marriott Advisory Board representative, Steve Staudt; the Golf Classic CMN Hospitals liaison and online auction organizer, Rebecca Noujaim; NJ Marriott Business Council President and General Manager of the Newark International Airport Marriott, John Magnifico; and all of the Marriott Golf Classic committee members and volunteers!
A SPECIAL THANK YOU TO OUR DONORS

Children’s Specialized Hospital Foundation acknowledges the generous support of its donors. Gifts to Children’s Specialized Hospital ensure that our patients receive the best possible care from the most skilled doctors and therapists.

We would like to recognize the following major donations from January 1, 2015 to June 30, 2015:

### Humanitarian Society Donors ($50,000 +)
- Nicholas J. & Anna K. Bouras Foundation
- Children’s Miracle Network Hospitals
- Estate of Estelle P. Hiller
- IHOP Restaurants
- Anonymous
- ASCO Power Technologies
- Mr. & Mrs. Alan J. Blake
- C. Northrop & A. Marder Pond Foundation
- Child’s Play

Children’s Specialized Hospital patient, Kiko Mina and his schoolmates recently held a fundraiser, Trash-A-Mania, where students made carnival-type games using nothing but recycled materials. Funds were donated to Children’s Specialized Hospital in honor of Kiko!

On Sunday, March 8th the Elizabeth PBA challenged the Elizabeth Fire Dept. in a “Battle of the Badges” Hockey Tournament to raise money for Children’s Specialized Hospital. Held at the Warinanco Ice Skating Center, the Elizabeth Police Team took home the title and the event raised $7,228 for the Friday Night Fever Program!

On June 12th, over 200 L’Oréal employees volunteered at Children’s Specialized Hospital at our New Brunswick and Mountainside locations and off-site, cleaning our playground, washing service vehicles, planting flowers, creating decorations for parties, and more!

On May 15th, over 300 Colgate volunteers donated more than 200 welcome bags and activities bags for our kids as well as making Family Fun Night decorations for our June Family Fun Night in New Brunswick.

Local artist, Theo Tamborlane donated her “Jump Rope” oil on canvas artwork to the Psychology Suite in Mountainside. From left to right: Kimberly Armenti, Director of Development; Theo Tamborlane; Roseann Pizzi, Ph.D., Supervisor of Psychology and ABA Services.

The Children’s Specialized Hospital Friends present their annual contribution for the Friday Night Fever Program. From left to right: Philip Salerno III, Children’s Specialized Hospital Foundation President & CDO; Marilyn Zocca, Friends Immediate Past President; Amy B. Mansue, Children’s Specialized Hospital President & CEO; Joan Murray, Friends President.
Children’s Specialized Hospital Volunteers Rally Around Athletes at the National Junior Disability Championships

Mid-July was an eventful and exciting time for Children’s Specialized Hospital and over 550 of its volunteers. Sponsored by Children’s Miracle Network Hospitals at Children’s Specialized Hospital, the National Junior Disability Championships (NJDC) were held for the fifth time in New Jersey, with over 200 admired athletes coming to Union County parks and recreation facilities to compete in the Paralympic-like games.

Children’s Specialized Hospital volunteers came out to the week-long games to welcome and assist qualifying athletes living with spinal cord injuries, cerebral palsy, visual impairments, amputations, limb deficiencies, and other congenital anomalies. NJDC athletes between ages 7-22 competed in track, field, swimming, archery, pentathlon, and powerlifting.

Individual and corporate/community volunteers from PSE&G, Dunn & Bradstreet, Lenox Advisors, Genpact, Gilbane, Ferring Pharmaceuticals, Scientific Design, and Elizabeth PBA #4 were on hand to time events, move and handle athlete's equipment or devices, record scores, measure distances, set-up and tear-down venue structures, coordinate lunch and beverage distribution, on-field preparation, cheering, and much more.

As athletes challenged themselves to achieve their goals and strive for greatness, hundreds of volunteers experienced being surrounded by driven and motivated youth.

Thank you to all of the NJDC volunteers!

Friends Host a Literary Luncheon

The Children’s Specialized Hospital Friends hosted a “Literary Luncheon” on April 30th at the Canoe Brook Country Club in Summit, NJ. Raising $23,500 with almost 150 attendees enjoying lunch and a silent auction, guests enjoyed readings from well-known authors including: Marta McDowell, TJ O’Connor, Jerry Parr with Carolyn Parr, and Jennifer Smith. All proceeds from the event supported Children’s Specialized Hospital’s Friday Night Fever program. The program is a monthly social and recreational program for teens with disabilities which provides opportunities for teens to make friends, socialize, participate in activities, and access a variety of community facilities.
Leave a Legacy for Generations of Children to Come

Children’s Specialized Hospital Heritage Society

When you remember Children’s Specialized Hospital in your will, you become a member of our Heritage Society entitling you to special recognition and benefits. Many of our donors have thoughtfully made provisions for Children’s Specialized Hospital in their estate planning. By becoming a member of the Heritage Society, you will ensure that Children’s Specialized Hospital will continue to bring quality healthcare to our community. For more information on how to become a member of the Children’s Specialized Hospital Foundation Heritage Society, call Kimberly Armenti, Director of Development, at 908-301-5462 or e-mail karmenti@childrens-specialized.org.

If you would like to remember Children’s Specialized Hospital in your will, the proper legal wording for a bequest is:

“I give and bequeath to Children’s Specialized Hospital Foundation (either the actual amount or the percentage if it is a residuary gift) for (the purpose of or to fund) OR the most urgent need as identified by the board of trustees.”
Your Generosity Can be Financially Rewarding

The best gifts have a way of giving back. When you invest in a Children’s Specialized Hospital Charitable Gift Annuity, you will not only be supporting the good work of Children’s Specialized Hospital and the children we serve, you will also receive guaranteed income for life!

A Children’s Specialized Hospital Gift Annuity is a great way to contribute to the health and well-being of others while receiving a guaranteed, fixed return on your investment. Your generous gift can be set up for yourself or for two. And the secure and steady payments you receive are your reward for helping Children’s Specialized Hospital perform countless miracles.

To learn more about the tax benefits of Charitable Gift Annuities with Children’s Specialized Hospital, please call Children’s Specialized Hospital Foundation planned giving office at 908-301-5462.

I used to have a hard time paying attention,  
But now I can focus on a task without hesitation.

I used to get really, really mad,  
But now I can control my anger so it isn’t so bad.

I used to not be able to move my left hand,  
But now I can use my hands like a drummer in a band.

I used to cry uncontrollably,  
But now I manage my sadness and don’t let it get the best of me.

I used to need a cane to walk without taking a fall,  
But now I can walk without endangering myself with no help at all.

I used to see nothing wrong with me,  
But now I know my deficits and I work to be the best that I can be.

I used to think I would get nowhere at Cog Re,  
But now I am improving each and every day I see.
